OGDEN CITY, UTAH, MONDAY EVENING, NOVEMBER 1, 1909

WEATHER FORECAST

UTAH—THE INDICATIONS ARE THAT THE WEATHER WILL BE PARTLY CLOUDY WITH RISING TEMPERATURE TONIGHT AND TOMORROW.

PRICE FIVE CENTS

BEGGED TO HAVE HIS LEGS CUT OFF AS HE SAW THE FLAMES ADVANCING

Brakeman in a Wrecked Caboose Is Burned to Death Within Full View of the Horrified Members of His Crew

Redding, Cal., Nov. 1.—Conductor Edward F. Richardson of Dunsmuir, Cal., was killed and Brakeman Neate, of the same place, was burned to death in the wreckage when the rear part of a freight train on the Southern Pacific was derailed in a tunnel between Keswick and Co. ram.

Brakeman Neate, inextricably fastened in the wreckage, remained conscious and when he saw the flames from the burning freight cars creeping near, begged the bystanders to cut off his legs to free him from the twisted rods that held him down, but they were powerless to help him. The flames crept nearer and nearer and finally incinerated the doomed man, while the other members of the train crew stood by in horrified helplessness.

When the tunnel caved, the caboose occupied by Conductor Richardson and Brakeman Neate was almost completely buried under a mass of earth and rocks, and with the survivors of the wreck, the wreckage immediately caught fire.

We are certainly able to take care and to cure our hookworms, without Mr. Rockefeller's million-dollar dose of vermifuge.

THE WORM IN SEATTLE.

Seattle, Wash., Nov. 1.—John Hoffinger, who wandered into the city hospital three days ago, is afflicted with the hookworm disease, according to the diagnosis of Dr. A. B. Greene. Hoffinger is 23 years old, a laborer, and a former resident of Texas. After arriving here from the south he remained for a short time at a lodging house, but the disease became so acute that he was obliged to seek treatment at the City hospital.

When Hoffinger was received at the hospital the physicians suspected that the hookworm was the cause of his ailment. Tests were made to determine the presence of the parasite, but it was not until yesterday that specimens of the hookworm were discovered. As far as is known, this is the first case on record in the northwest.

OLD MAN WANTED TO MARRY A GIRL

Oroville, Cal., Nov. 1.—John Pinceney Ware, 70 years old and a resident of Oroville, appeared before County Clerk Bacheider Saturday and asked for a license to wed Clara May Burns, whose age was given by her mother as 15 years, but who did not look more than 13.

The girl was accompanied by her mother, Mrs. Elizabeth Raglin, who gave her consent to the marriage. Despite this fact, Bacheider refused to grant the license. The custody of the girl may be taken from the mother and vested in Probation Officer J. A. Glenn.

Application for the license was first made Bacheider thought the license was desired for the mother, who gave her age as 24 years.

HOOKWORM DISEASE

South Objects to Taking a Dose of Rockefeller Vermifuge.

Atlanta, Ga., Nov. 1.—Regarding the \$1,000,000 gift of John D. Rockefeller for the investigation and cure of the "hookworm" disease, Bishop Warren (Candler) of the Southern Methodist church, said yesterday:

"It is to be hoped that our people will not be taken in by Mr. Rockefeller's vermifuge fund and hookworm commission. The habit of shining out the south for all sorts of reforms, remedies and enlightenments is not for our benefit, and the too ready acceptance of these things upon the part of some of our people is not to our credit. Mr. Rockefeller would take charge of both our heads and our stomachs and purge our brains of ignorance and our bowels of worms."

For some reason, self-appointed philanthropists have taken it upon themselves to discover and proclaim conditions in the South, calculated to create further prejudice against the states and people of the South, so as to divert immigration and to alarm the resident population.

"A great deal of exertion has been required in the past to establish the fact of the many slanderous charges made against the South and this section has not yet recovered fully from them. Recently an outcry was made that the Southern people had become the victims of a deadly disease known as 'pellagra,' which was charged to the use of Indian corn. The disease has been traced to southern Europe where it is common, and later information goes to show that it was imported in the persons of immigrants."

The pellagra panic having failed of the expected result, now comes a new one about the hookworm. The South is represented to be filled with a wretched brood of dirt eaters, who eat human excrement, and that it is time the Southern people had begun to resent this offensive disposition to take care of them which certain parties are admitted to. Donations may easily, as the hookworm panics, wound where they bit and leave a mortal poison in the hole they make after being received.

ASHES ARE SCATTERED

In Accordance With the Dying Request of a Doctor.

Kansas City, Mo., Nov. 1.—In accordance with his dying request, the ashes of Dr. H. Osborne, who died here last week, were thrown into the Missouri river from the Hannibal railroad bridge here yesterday. Dr. T. D. Miller, with a brief quotation from Thackeray, consigned the dust to the swirling waters of the river, the friends of the late physician.

Dr. Osborne came here from New York several years ago. His request that all who attended his strange funeral be given a drink was not complied with as the Sunday liquor laws here forbid it.

Metal Market.

New York, Nov. 1.—Lead, quiet, \$4.22 to \$4.24. Copper, firm; standard, spot and December 12 1/2 to 1/4. Silver, 50 1/4.

PROSPERITY HAS ARRIVED.

Washington, Nov. 1.—Prosperity has arrived, according to a statement issued today by the department of commerce and labor.

During the past year, the business of the country and the volume of freight cars reached proportions which exceeded those of the same month last year. In fact, the bulletin declares, while the number of live cars at the end of last month had not altogether disappeared, there were indications that a car famine would quickly develop. These improved conditions are most pronounced in the coal and iron trades. The movement of lumber was also somewhat heavier.

There was a considerable slump in the receipts of grain and flour at the four leading seaports, and receipts of grain at fifteen of the principal interior markets likewise were below the aggregate for September, 1908. A similar condition is uncovered in the shipment of packing house products from Chicago, the chief slump being on canned meats, which show a relative loss over the corresponding figures of 1908 of approximately 45 per cent.

MRS. SHARP RELEASED FROM THE KANSAS CITY JAIL.

Kansas City, Mo., Nov. 1.—Mrs. Melissa Sharp, wife of John Sharp, whose bands of religious fanaticism fought a battle with the police here last December, was freed from the county jail yesterday. Her husband, generally known as "Adam God," is now in the state penitentiary serving a 25-year sentence for the killing of a 25-year-old woman, the killing of the five victims of the riot. Mrs. Sharp was never brought to trial.

OUTBREAK IS EXPECTED BY JAPANESE IN KOREA.

London, Nov. 1.—The correspondent of the Star at Kobe, Japan, telegraphs that an outbreak in Korea is expected, following a widespread unrest occasioned by the assassination of Prince Ito. He adds:

"General Okubo, commander-in-chief of the Japanese forces in Korea, has abandoned his projected visit to Tokyo."

MEXICAN DIES AT THE AGE OF 109 YEARS.

Los Angeles, Cal., Nov. 1.—Andres Medrano, a Mexican who died at the age of 109 years, was buried here yesterday.

He was born at San Idrado de Las Guayas, Mexico, and had lived in Los Angeles seven years. During the Mexican war he served as a private soldier in the army of the republic.

A Vote for Glasmann Means Small Taxes

EATEN BY CANNIBALS AT JACKSON

Men in a Boat Are Captured by the Natives

Manila, Nov. 1.—Rear Admiral Sebee reports that when the United States Pacific fleet touched at Admiralty Island, it was learned that recently cannibals from the islands had captured a boat containing Englishmen and three Chinese. One of the Englishmen, who escaped through the kindness of a friendly tribe, said his companions had been killed and eaten.

There have been repeated reports of attacks by savages on shipwrecked sailors in Polynesia during the last few weeks and it is possible the story told by the fleet is another version of the massacre at New Britain in September. In that instance Captain Lindsay and his crew of ten of the Ketch Rabaul, who were on a trading expedition, were said to have been killed.

LIVES LOST IN A FIRE

Woman Saves Her Children Then Falls and Breaks Her Back

Bellingham, Wash., Nov. 1.—Two lives were lost, one woman was fatally injured and a dozen were seriously burned in a fire which razed three three-story lodging houses on Elk street today. The dead were William Gorman, carpenter, and William Dawson, carpenter.

Fatally injured: Mrs. Emma Buffin, spine broken. Within a few minutes after the fire was discovered, the interior of the Denver house, the Seattle house, and the two stories over the B. B. grocery were a mass of flames. Inmates dashed through the flames in night attire to the stairways and leaped from the windows. Many were taken down ladders by firemen.

Mrs. Buffin lowered her two children from the third-story window to the street with clothes lines and then leaped. He back was broken. One frantic girl hung by her finger tips to a window sill on the third floor for eight minutes before a ladder arrived and she was rescued by firemen. Her clothing was burning when she was rescued.

HENRY'S CHANCES ARE AS YET UNKNOWN.

San Francisco, Nov. 1.—San Francisco's municipal campaign will be waged until a late hour tonight with scores of political meetings in various parts of the city. Political forecasters concede that the issue is in doubt as between William Crocker, Republican nominee for mayor, P. H. McCarthy, Union Labor, and Dr. T. W. B. Leland, Democrat. The fight for the district attorneyship between Francis J. Heney, Democrat, and Charles M. Fletcher, Republican and Union Labor, over shadows the majority contest, is likewise close and predictions as to the outcome are mere guesses.

GOVERNOR NEEL IN HIS INTRODUCTORY ADDRESS, HAS REFERRED TO THE MANY PLACES OF CONFIDENCE MR. TAFT HAD HELD.

The President declared he was glad to come to Mississippi because it was one of the great agricultural states of the union. Most of the great men of the state, he said, had been farmers and lawyers.

The president said Mississippi river improvement was being agitated as never before and he believed the sentiment in favor of improvement was stronger at this time than ever.

"But we must be certain what we are going to do," he added, "and be sure we are not pouring our money down a rat hole."

Governor Neel, in his introductory address, has referred to the many places of confidence Mr. Taft had held. The President said "he admitted" it all. Whenever officers were "trained from the sky," he added, with a characteristic chuckle, "my plate was up."

Closing his address, the President said "I now have made more than two hundred speeches on this trip. The Lord forgive me for making them and

BODY OF ITO ARRIVES AT TOKIO AND THOUSANDS VIEW THE CASKET

the Lord help those who have had to hear them."

There has been much discussion in Jackson as to whether the \$25 a plate banquet served to the President tonight should include wine. Mississippi being a prohibition state.

It was finally decided that the \$25 assessment could not be spent unless liquor was served to the diners, so who went on the menu cards and has been imported for the occasion.

WEST POINT IS IN MOURNING FOR BYRNE

West Point, N. Y., Nov. 1.—The military academy is mourning today the loss of Cadet Eugene A. Byrne, who died yesterday of injuries received Saturday in the football game with Harvard. Many telegrams expressing sympathy and sorrow were received today by Colonel Hugh L. Scott, superintendent of the academy, and James A. Byrne, the dead cadet's father, who, with the young man's mother, will remain with the body until it is buried tomorrow with full military honors in the West Point academy cemetery.

It was officially announced today at the academy that West Point would pay no more football games this season. It is not thought, however, that Colonel Scott will advocate the abandonment of the sport.

A post-mortem examination of Cadet Byrne's body showed that the second and third cervical vertebrae had been fractured and the respiratory nerves paralyzed.

JEFFRIES WILL DO A GREAT DEAL OF WALKING

New York, Nov. 1.—James J. Jeffries will remain in this vicinity until after December 1. His plan is to walk from five to ten miles daily, to work in a local gymnasium about three hours each day. Over Saturdays and Sundays he expects to repeat his pleasant outing of yesterday when he enjoyed good fishing down on Long Island and where he may possibly go duck hunting. As soon as it is decided where the fight with Jack Johnson is to be held, Jeffries will go to the mountains of California to begin hard training.

CRANE GOES TO EUROPE.

Chicago, Nov. 1.—Charles R. Crane, who recently was recalled as minister-designate to China, will leave in a few days for Europe, according to a telegram received here from New York, assigning the trip abroad as his reason for declining a public banquet proposed in his honor. Fifty prominent Chicagoans signed the invitation to the banquet which was intended as a vindication of the former minister-designate's attitude just prior to his recall.

BLACKHILLS FIRES ARE UNDER CONTROL

Deadwood, S. D., Nov. 1.—It is now believed the big forest fires that have been raging through the Black Hills for the last week are well under control. The fires, which threatened the Mammoth Mining company's property, are out.

NAVY NOW IS JUNK

Five Turkish Battleships Are to Be Sold as Scrap Iron.

Washington, Nov. 1.—American iron and steel manufacturers have received requests from the Turkish government to submit offers on one of the most notable piles of scrap iron ever put up for sale, nearly one-half of the Ottoman navy, as it appears on paper. On November 11, bids will be received by the Porte for the sale of five battleships. Their construction made Turkey the third naval power in the world; their destruction at a time when that country ranks near the bottom of the list of naval powers, is a step by the new regime to regain the empire's lost prestige.

NEW SHIPS WILL TAKE THE PLACES OF THE DISCARDED ONES.

The battleships offered for sale are the Azizeh, the Mahmoudieh, the Osmanieh, the Orkanieh and the Hamadeh. The first four were constructed in England in 1864 and 1865, while the Hamadeh was not launched until 1885. The ships are of one type, bearing 6,000 tons displacement and six-inch armor. They carry a speed of fourteen knots an hour.

Sir Richard Gamble of the British navy, together with a number of subordinate English officers, are now engaged in reorganizing the Turkish navy. They have decreed that the policy of pretense must end and at the same time the names of the five vessels are stricken from the list of battleships as ineffective, and will be sold to the highest bidder in junk. Dealers throughout the world have been invited to bid for them.

Streets Are Crowded With Mourners and Houses Display Flags and Crepe—Body Will Lie in State at Residence

TOKIO, NOV. 1.—The body of Prince Ito, who was assassinated October 25 by a Korean at Berlin, Manchuria, was received in this city this afternoon with honors commensurate with the distinguished career of the Japanese statesman.

The party of escort arrived at Yokohama on board the warship Iwate just before 10 o'clock this morning, and was met there by the family of the prince, a few of his most intimate friends, including Count Inouye, Premier Katsura, Vice Admiral Baron Saito and Baron Simegi Goto, minister of communications. From Yokohama a special train brought the party to Tokio.

The scene at the railroad station here when the train arrived was remarkable. The platform was occupied by distinguished representatives of public and private life, including five princes.

At Yokohama the privilege of guarding the casket had been relinquished by the navy and assumed by the army, and here it was placed in a carriage and drawn by troopers through the streets to the Ito home.

The body will lie in state at the residence until Thursday, when the funeral will be held.

LOST HIS SAVINGS

Chicago Man Has \$800 Taken From an Inside Pocket.

Chicago, Nov. 1.—Having no faith in banks, Peter Massion of 3151 Orchard street, carried his savings in a wallet snugly tucked in an inside pocket of his vest. He had been laying aside \$3 a week out of his wages as a street car employee and in five years succeeded in getting together about \$800.

At 4 o'clock Sunday morning, while Massion was on his way home from work, he was stopped by three robbers at Garfield and Orchard streets. One of the men held a revolver to the victim's head while the others tore open his coat and vest and relieved him of the fat wallet. It held exactly \$707.

Massion had \$3 in another pocket, but the robbers made no effort to search him further after getting the large amount. He went to the Halsted street police station and reported his loss, but no arrests have been made.

ALL THREE CLAIM THE ELECTION

HEAVY CAMPAIGN MAIL IN NEW YORK POSTOFFICE

New York, Nov. 1.—Campaign mail was at high tide today with the post-office fearing an inundation. Each of the three leading political parties delivered thousands of thousands of letters and circulars at the various city postoffices at the last minute, making it necessary to call in all employees who were off duty. Although it is estimated that more than 2,500,000 extra pieces of campaign mail reached the postoffice before daylight, the postmaster said that it and the regular heavy volume of Monday mail would be delivered if it took until midnight.

JOHNSON EXPECTS TO FIGHT JEFFRIES NEXT JULY

Chicago, Nov. 1.—Jack Johnson, the colored pugilist, returned to Chicago today after his conference with Jeffries. He paid his appearance fee in the municipal court, where he has been sued by Yank Kennedy for money alleged to be due on a training contract.

CHOLERA AND PLAGUE.

Amoy, China, Nov. 1.—It is officially reported that there were 52 deaths from cholera and 73 deaths from bubonic plague in this city during the fortnight ending Saturday.

Don't Miss the Republican Meeting, Weber Stake Academy, Tonight
